Profile

I'm Felix Sargent, an experienced Engineering manager. Since working at Rackspace as a Software Engineer, I have focused on managing and growing productive, highly-collaborative teams. I believe teams work best when they feel safe, and are well equipped for their challenging work.

I specialize in engineering management around platform infrastructure, developer tools, and product backends. I code in Javascript/TypeScript and Python, but I am comfortable leading a team in any language.

Experience

Sr. Engineering Manager @ [Truework](#)

Oct 2021 - Oct 2022

- Managed the Interfaces (FE App, API, TrueworkJS Widget (like Plaid), [Encompass](#) Integration) and Infrastructure teams (Django Python BE, TypeScript React FE)
- Hired 10 engineers and 3 interns. Directly managed 11 individual contributors
- Led the "API First" strategic initiative to create a first-class external developer experience
- Renegotiated contracts with Optimizely, Stoplight and Segment to keep costs lean as we expanded the team
- Revamped Front End and Backend recruiting, interviews structure, and hiring processes
- Transitioned a hard-working but unstructured team to use modern agile processes
- Coached underperforming team members up and through promotion

Sr. Engineering Manager, University @ [Atlassian](#)

May 2020 - Oct 2021

- **Technical Architect of [Atlassian University](#), Atlassian's customer education platform ([Intellum](#))**
- Performed market research on the e-learning space, working with vendors and gathering detailed requirements to migrate from legacy systems to a new vendor
- Worked to a hard deadline to migrate existing learning data to our new platform, developing integrations with Atlassian's existing system
- When needed, I dived into the code (Python, with Pandas and API integrations)
- **Engineering Manager for the [Training for Jira](#) marketplace add-on**
- Managed a team of contractors to deliver the Training for Jira marketplace add-on.
- Worked with cross-functional teams to migrate a legacy project to a new system. Used analytics to prioritize work, and liaised with multiple third parties.

Director of Engineering, Campaigns & API Usability @ [MediaMath](#)

November 2016 - April 2020

- Managed 15 Engineers over two teams (Perl, NodeJS, Python)
- Supported the team's migration to CI/CD, reducing test and deployment time from days to minutes and reducing server costs for QA environments by 85%
- Facilitated the migration of authentication services to OAuth across the platform, enabling MFA, and improving security and customer experience
- Advocated for and implemented [Feature Flagging](#) platform wide
- Oversaw the transformation of the [MediaMath API portal](#), transforming REST API customer experience with a fanatically positive response
- Implemented Open Source license compliance regulatory schemes with [Fossa.io](#) enabling the close of a multi-million-dollar credit facility from Goldman Sachs

VP of Product @ [GovOS](#) (SeamlessDocs)

November 2015 - November 2016

- Led the product team with a philosophy of servant leadership to encourage discussion, healthy debate, and clear communication
- Created product strategy and worked with CEO and VP Eng. to set the road map to replace unreliable legacy systems (PHP -> Scala, JS/React)
- Managed recruiting and hiring for the Engineering team, scaling from 3 to 15 engineers
- Re-established trust between engineering and sales teams by establishing consistency, stabilizing the platform, and getting bugs closed
- Developed process for the account management team to triage and prioritize customer issues bringing median resolution time down by 80%, and increasing customer NPS scores by 60%
- Conducted extensive user research with government officials to refine product features and specifications
- Re-negotiated contractual obligations with customers to reduce commitments, and align engineering road map with company direction

Sr. Product Manager, [Vault @ Bloomberg](#)

October 2014 - November 2015

- Product owner for Bloomberg Vault Surveillance, the communications monitoring and auditing tool for the Bloomberg Terminal (MCMP, BVTP)
- Implemented technology and policies to capture communications to prevent Market Abuse, Insider Trading, Harassment, and Data Loss
- Coordinated a team working on the latest and greatest technology stack including Scala, Play, Accumulo, & Akka running on a Mesos infrastructure
- Worked with Compliance and Security Officers to ensure the data integrity of our clients, and the Bloomberg Terminal

Engineer / Product Manager @ [Rackspace](#)

August 2011 - October 2014

- **Product owner for [Rackspace Autoscale \(Python, Twisted\)](#)**
- Initially an Engineer on the Autoscale team, and was promoted to Technical PM
- Defined the product strategy, roadmap, user stories, KPIs, and priorities
- **Product owner for [Repose \(Java\), an API Middleware Platform](#)**
- Repose handles Authentication (Openstack Keystone), Security, Rate Limiting, and Content Normalization for nearly all Rackspace APIs
- Presented [Repose, the Openstack API Filter](#) at OpenStack 2014
- Built the office [Keperator](#)

Projects

[Mechanical Keyboards](#) - So many mechanical keyboards.

[BARTSign](#) - Raspberry Pi Based Transit Board

[Fippi](#) - Physical internet radio, and Air Quality Monitor

[My Voice is My Passport](#) (eg 1992 movie [Sneakers](#)) - Voice Recognition Passwords for Condo Entry

Volunteer Work

Chair of the Board @ [Center for Election Science](#)

2017 - Current

A non-profit organization dedicated to improving the way we vote

- CES changed the way [Fargo, ND](#), and [St. Louis, MO](#) elect their leaders
- Recruit new board members, coordinate strategic donors, and raise grants for the organization
- Wrote [Berkeley's City Council's switch to 're-weighted range voting' adds fairness to the system](#) (Berkeleyside)

Mentor @ [The Product Group](#)

2015 - 2017

- Recognized with the [Outstanding Product Mentor Award](#)
- [Managing Technical Debt](#) (July 17, 2016)
- [How to Interview a Product Manager](#) (February 7, 2016)
- [Inheriting a Project](#) (July 8, 2015)

Founded the [San Francisco Brigade](#) @ Code for America

2013

- Reformed the way [San Francisco Citizens without bank accounts get access to financial services](#)
- Brought the [City Administrative Code](#) online

Education

BA, Economics @ [San Francisco State University](#)

President, Economics Students Association

Treasurer, Pre-Law Society

Varsity Intercollegiate Policy Debate Team
